

## **Enniscorthy Golf Club**

### **Costing for Lift in Clubhouse**

#### **Option 1: Minimum Option**

##### Chair Lift

Included in this option is a ramp to the front door to allow for primary access.  
With this option we would continue to use the present Assisted Toilet.

Cost: €18,394

#### **Option 2: Medium Option**

##### Outside Lift Elevator Shaft

Self contained lift shaft attached to the outside of the building. This option will require planning permission and a side ramp as lift is accessed directly from outside.  
With this option we would continue to use the present Assisted Toilet.

Cost: Lift plus planning permission €39,552

#### **Option 3: Comprehensive Option**

##### Platform Lift Indoors

Included in this option are a ramp and fully accessible toilet facilities. Substantial structural and alteration work.

Cost: €64,127

This is a fully comprehensive option.

Please note: There will be an annual cost of between €500 and €1,000 (plus VAT) maintenance cost for all of the above options depending on how comprehensive a cover plan we wish.

In addition, on Options 2 and 3 we will require 24 hour emergency cover on the HELP button at a cost of €420 (plus VAT) per annum.

#### Notes:

1. Funds raised to date for accessibility works €23,000
2. Motion passed by members at 2015 AGM to collect a levy for lift installation.

Thank you to Neville Conroy and Gordon Radloff for all their work on this project
